INTRODUCTION

As a skilled student with expertise in C, C++, HTML, CSS, and JavaScript, along with a background in graphic designing, I bring a unique blend of technical and creative abilities to my work. I have created visually stunning designs for a diverse range of projects .Continuously seeking opportunities to expand my skills and stay updated with the latest industry trends. I thrive in bridging the gap between design and functionality. With strong problem-solving skills and a collaborative mindset, I am eager to contribute to innovative projects that require the fusion of programming and design.

EXPERIENCE

Logicalloops.inc | Software Developer Trainee | November 2022 – May 2023
- As a front-end developer intern, I successfully contributed to web development projects by leveraging my skills in HTML, CSS, and JavaScript.
- Through my internship, I developed strong problem-solving abilities and learned to effectively communicate with team members

The investment solution pvt. ltd.| Sales Team Leader | August 2021 – Feb 2022
- As a Sales Team Lead in the real estate industry, I successfully led a dynamic team of 15 members, overseeing their performance and results. Through effective communication and motivation, I fostered a collaborative and high-performing sales culture.

KEY PROJECTS

University Website Dashboard |Microsoft PowerBI, HTML, CSS, Microsoft Excel | May 2023
- Lead the university website Dashboard Team and gained technical knowledge as well as Leadership skills
- Developed and designed the dashboard for the university website.

Marvels Expandable cards | HTML, CSS, Javascript | April 2023
- I designed expandable Marvels card using HTML, CSS, and JavaScript. Through creative coding techniques, I brought the card to life with interactive features, allowing users to expand and explore additional content.

TECHNICAL SKILLS

- Languages: *C, C++, HTML , CSS, JavaScript .*
